

CUSTOM-BUILT SANTOS TRAVELMASTER 3+.

For Martin & Katja

From Patagonia to Canada

In January 2022, Danish couple Martin and Katja made a life-changing decision to leave their jobs behind and embark on an epic cycling adventure. Their journey began at the southernmost tip of South America, leading them all the way to the Canadian city of Vancouver. While Martin possessed extensive cycling experience, Katja had just begun her cycling journey in the summer of 2021. With unwavering determination

and the support of many people they encountered along the way, they reached their final destination on 4th October 2023 after having cycled 22,600 kilometers in 21 months.

The selection of the right gear played a crucial role in their journey. Enduring over 600 days on the road and conquering challenging mountain passes, they turned to Santos to custom-build the perfect bicycle for the task: a Santos Travelmaster 3+ equipped with 27.5-inch wheels, a Pinion internal gearbox, and a Gates carbon belt. This set-up ensured a durable and low-maintenance ride, essential for their long-distance travels in remote areas.

ABOUT SANTOS BIKES.

Santos is an independent Dutch bicycle brand with a big passion for cycling, a great love for quality and an innovative Research and Development policy. It was founded in 1997 by Robbert Rutgrink, an avid mountainbiker who started building his own bikes at a very young age.

Santos continuously strives to build the best bike for each individual cyclist. With the right frame for a good posture, the best drive system that meets the specific needs and the unique option to customize all bicycle parts according to taste. No assembly line production but custom building. With great attention to sustainability: built for life.

Every Santos contains Santos Only parts, specially designed in-house for the ultimate cycling experience. Sometimes these are prominent, sometimes barely visible. To further enhance the modularity and durability of each bicycle.

All bikes are custom made in the Santos factory just outside Amsterdam. Santos has a large dealer network, mainly in the Netherlands and Belgium. The bikes are also shipped worldwide.
