

SANTOS PATROL BIKE.

An icon on the streets for over 15 years

The Santos Patrol Bike boasts remarkable strength and agility as a high-performance patrol bike. Its minimal maintenance requirements and exceptional durability make it a reliable choice. Thousands of Santos Patrol Bikes are used every day by organisations such as the police, ambulance services, municipal enforcers, the Red Cross, the rescue brigade, and the State Forest Service. As a result, it has become an integral part of the urban landscape, recognised and embraced by communities far and wide.

Proven durability

SANTOS PATROL BIKE

Dedicated to the rider's needs

The foundation of the Santos Patrol Bike lies in its modular frame, which offers the freedom to customise, upgrade or replace components to suit your preferences. Select from a wide range of colours, saddles and handlebars. Decide between belt or chain drive, with or without lighting, and choose between rim or disc brakes. The options are countless, allowing this vehicle to truly become an extension of the rider, capable of serving in surveillance, transportation or defence purposes.

Sturdy & resilient frame with a long-lasting powder coating for durability.

Wide variety of saddle options.

Ultra strong rear rack to carry extensive medical kits including oxygen delivery equipment and an AED.

27.5 / 28-inch hand-built wheels extra strong.

Wide tyres for enhanced grip, comfort, safety. Better control during demanding maneuvers such as riding stairs.

Reliable Rohloff hub with 14 internal gears, no cleaning required, proven durability.

Durable Santos belt drive.

The Santos Patrol Bike is purpose-built for demanding everyday use, establishing itself as an exceptionally dependable companion on the streets. It is accustomed to endure rough handling and can even double as a protective shield in perilous circumstances.

Dynamic and comfortable riding posture, adjustable handlebar height for personalised fit.

Ergonomic handlebars and bar-ends in different sizes for optimal comfort and grip.

E-bike ready.

Anytime shifting, even at a standstill.

Safe and neutral handling, agile and fast.

Customisable colours, striping, and logos of your preference.

Optional lighting featuring a SON hub dynamo.

Choice of rim or disc brakes. Both offer excellent control and powerful performance in all weather conditions.

Wide, grip-enhancing pedals offer superior support and efficient pedalling. Comfortably accommodate larger shoe sizes and can also be fitted with optional clip-in pedals.

ALWAYS PREPARED

Santos delivers more than just mobility. In addition to the Patrol Bike, we provide comprehensive service and maintenance. By prioritising a minimal amount of preventive maintenance, we ensure that our vehicles are ready for maximum deployment. The equipment is meticulously maintained, ensuring it remains in a state of optimal readiness.

Efficient on-site maintenance

A Santos Patrol Bike is purpose-built for demanding daily use, requiring minimal maintenance while offering exceptional durability. For our business customers, Santos can offer on-site preventative maintenance services 1 to 2 times per year. Repairs are promptly addressed whenever necessary, ensuring minimal downtime and maximising the lifespan.

Cost vs. Lifespan

A Santos Patrol Bike is typically in use for an average of 10 to 12 years. The benefits of proactive maintenance are quickly realised, with the combination of its extended lifespan and efficient upkeep resulting in significantly reduced costs. In practice, this works out to under £2 per day.

Closed cables and brake lines

The Patrol Bike features a sealed gearbox and closed cables and brake lines, preventing dust and dirt from entering.

Low-maintenance drivetrain

The reliable Rohloff hub and Santos belt drive have proven durability. Dirt and dust stand no chance. Cleaning is not necessary. Oil changes are only required 1 to 2 times per year.

AND FURTHERMORE

Future-proof

The modularity of the Patrol Bike allows for future optimisation through retrofitting, ensuring that the Santos Patrol Bike is equipped for further developments. Even after years of use, existing components remain replaceable, guaranteeing long-term functionality. Additionally, the option for converting to an e-bike is currently available and will remain possible in the future.

Available from 1 unit

Santos custom-builds all its Patrol Bikes Just in Time, ensuring prompt delivery. Whether you need just a single unit or several thousand, we can accommodate your requirements.

Special geometry

The Santos Patrol Bike is designed to deliver optimal stability and agile handling even when carrying a heavy load. It accommodates the transportation of crucial medical equipment while ensuring both comfortable navigation and rapid response times.

Less than £2 per day

With this cost, the Dutch Police now have access to a practical and environmentally friendly vehicle suitable for urban and road use. This price includes maintenance and depreciation, calculated based on the vehicle's practical usage throughout the year (365 days). Further details can be provided upon request.

Unparalleled durability

With a proven track record of enduring reliability, the Santos Patrol Bike stands out for its exceptional lifespan, confirming its status as a vehicle 'Built for life'.

Reflecting your organisation's identity

Select from a wide range of over 50 frame colours and personalise your bike with bespoke striping and logos. The Rohloff gear hub and SON lighting come in 6 different colours and offer the flexibility to create unique combinations that perfectly match your preferences.

SANTOS IN THE FIELD

"The Santos Patrol Bikes face rigorous demands. They endure rough handling and tough conditions, but they are built to withstand it all."

Training Programmes

The Santos Patrol Bikes excel in various manoeuvres, but they are only the starting point. Santos offers a wide range of proven training programmes that can be conducted on-site, tailored to your needs. Participating in these training sessions not only enhances your skills but also provides valuable insights. For more information or to schedule a training, please get in touch with us.

Santos is an independent Dutch bicycle brand with a big passion for cycling, a great love for quality and an innovative Research and Development department. It was founded in 1997 by bicycle enthusiast Robbert Rutgrink.

Our aim is to build the best possible bike for every cyclist. The right frame for your posture, the best transmission for your requirements and the option to customise all bicycle parts according to your taste.

Every Santos contains Santos Only parts, specially designed by us for the ultimate cycling experience. Sometimes prominent, sometimes barely visible. But always there to enhance the versatility, modularity and durability of your bike.

All Santos bicycles are custom-built at our factory just outside Amsterdam and can be shipped worldwide.

REFERENCES

Antwerp Police | Tom Hertogs:

"Our bike team provides assistance during intervention assignments, and you often see them at city events. They are fast and agile, moving smoothly through urban traffic. In addition, they are approachable and easy to engage with. With their Patrol Bikes, they can reach locations that are challenging for patrol cars to access. That sets us apart in a unique way."

Dutch Police | Neighbourhood Officers Buytenwegh:

"The benefits of patrolling on our Santos Bikes are numerous: approachability, visibility, recognisability, and manoeuvrability. It allows us to reach locations that are inaccessible to other patrol vehicles."

Enforcement The Hague | Henk Bergsma:

"Santos Bikes, a reliable partner on the streets."

Brussels Police | Jurgen Willems:

"We believe that a responsive police officer deserves a reliable Patrol Bike that is ready for any situation. That's why we have chosen to partner with Santos Bikes."

The organisations listed below use Santos Patrol Bikes. Santos is happy to facilitate connections with them.
